

EV SOLUTIONS

We have a wide range of solutions:

Buses:

SMART ENERGY

A one-stop solution in one place:

Distributed generation according to the needs of each project.

Storage and control of power supply.

MICRO-SUPPLY NETWORKS

Generation, storage, and transmission of electric power for isolated communities

Energy + wellbeing

Self-sufficiency

Social impact

COLORFUL PANELS

We offer customized solar panels:

They can simulate different colors or materials for building walls, ceilings, and even side panels.

Ocr technology allows us to manufacture photovoltaic glass for windows or different graphic designs.

SOCIAL IMPACT

Our social impact strategy

Thank you!
